RESEARCH INTEREST

I am interested in designing representations for reinforcement learning that can lead to stable and scalable algorithms when used with (non-linear) function approximation.

EDUCATION

PhD in Computer Science, McGill University (Canada), 2019 - to date
Reinforcement learning, advised by Prof. Joelle Pineau

MSc in Applied Mathematics, Université Paris-Saclay (France), 2017-2018
Master "Mathématiques, Vision, Apprentissage" (MVA). Topic: *Learning diverse neural networks for improved exploration in deep reinforcement learning*

BS, MEng, École Centrale de Lille (France), 2010-2017

EXPERIENCE

Research intern, McGill University (Canada) May 2018 - Dec. 2018
Topic: *Exploration in deep reinforcement learning [2]*

Research intern, Polytechnique Montréal (Canada) May 2017 - Sep. 2017
Topic: *Semantic segmentation of the spinal cord [1]*

Business intelligence analyst, Shopwings (Australia) Jun. 2016 - Sep. 2016
Startup. Developing data analysis tools, project manager.

Internal vice-president, Centrale Lille Projets (France) Apr. 2014 - Mar. 2015
Student-led consulting company (100k€ turn-over).
In charge of HR, project manager for 5 projects (∼15k€).

TALKS

5-minute spotlight-like talk [4], IJCAI (online) Jan. 2021

Invited talk, NeuroPoly lab (Canada), Jun. 2019
Using diverse ensembles for out-of-distribution detection [3]

AWARDS

FRQNT scholarship, doctoral program 2021-2023
Fond de Recherche du Québec - Nature et Technologies.
Competitive provincial scholarship, 25% acceptance.

COMPUTER SKILLS

Programming: Python, Pytorch, TensorFlow
Software/OS: Git, Unix, Slurm, LaTeX, Matlab
